PRODUCT INFORMATION

COVVEILA, a flowable micronized dispersion of calcium carbonate, is intended for foliar application and is designed for use as a protectant against sunburn and stress. *COVVEILA* may reduce excessive heating of buds and stems on sunny winter days and improve chill accumulation. *COVVEILA* may be applied to all non-calcium sensitive crops. Intended for agricultural crops, nursery and greenhouse plants, *COVVEILA* forms a refraction layer to diffuse and soften light. The result of *COVVEILA* applied to plants is an ultra-fine refractive coating with white hues.

DIRECTIONS FOR USE

COVVEILA is recommended for use on crops affected by heat stress, including but not limited to corn, cucurbit, fruit, legumes, tree nuts, tuber crops, wine and vegetable crops. *COVVEILA* can be applied through most conventional spray equipment following recommended use rates.

SHAKE WELL BEFORE USE.

Use in accordance with label instructions and/or the recommendations of a qualified individual or institution such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

APPLICATION RATE RECOMMENDATIONS

Apply 2-4 gal/acre of *COVVEILA* before heat event and repeat every 12-21 days as needed. Early morning or late evening application will improve coverage on plant surfaces and improve performance.

Apply only by ground 4-6 gallons of *COVVEILA* early to mid-winter when above freezing and expected dry weather for 48-72 hours to protect buds and stems from excessive winter heating. Repeat in 4-6 weeks as needed. For dormant applications, do not add surfactants.

Ground applications: Apply *COVVEILA* in sufficient water to obtain good coverage. **Aerial applications:** Use a minimum of 1 gallon of water per pint of product applied per acre. Apply a minimum of 2 gallons of *COVVEILA* per acre.

Post-harvest removal: In general, *COVVEILA* can be removed on a commercial packing line equipped with a water filled dump tank and a brush section for agitation. During and after agitation and prior to treatment with any wash and/or fungicides, a fresh water rinse is recommended. Rinse water with a pH of 5.5 or below improves residue removal.

STORAGE & DISPOSAL

Store above 35° F. Do not allow to freeze. Store product in original container tightly closed, upright, in a dry place. DO NOT store in excessive cold or heat. DO NOT reuse container. DO NOT contaminate water, food or feed by storage or disposal. Triple rinse or equivalent and dispose of container in accordance with local, state, and federal regulations.

WARRANTY, DISCLAIMER AND LIMITATION OF DAMAGES

INNICTIS BioScience Plant Health Technologies warrants only that this product conforms to the product description on the label and is reasonably fit for the purposes stated in the Directions for Use. The Directions for Use of this product are believed to be adequate and must be followed carefully. It is, however, impossible to eliminate all risks associated with this product. Crop injury, ineffectiveness, or other unintended consequences may result due to such factors as weather conditions, presence or absence of other materials, or the manner or use or application, all of which are beyond the control of INNICTIS BioScience Plant Health Technologies. All such risks must be assumed by the buyer or user. Except as warranted on this label, INNICTIS BioScience Plant Health Technologies makes no representation, warranty, or guarantee, whether expressed or implied including, but not limited to, warranty of merchantability, fitness for a particular purpose, or otherwise. No agent or representative of INNICTIS BioScience Plant Health Technologies or the seller of the product is authorized to amend the terms of this Warranty disclaimer or the product's label or to make a representation or recommendation different or inconsistent with the label of this product. To the extent consistent with applicable law, INNICTIS BioScience Plant Health Technologies' maximum liability for breach of its warranty or for use of this product, regardless of the form of action, shall not exceed the purchase price of this product. To the extent permitted by applicable law, INNICTIS BioScience Plant Health Technologies shall not be liable for consequential, special or indirect damages resulting from the use, handling, application, storage, or disposal of this product or for damages in the nature of penalties, and the buyer and the user waive any right that they may have to such damages. If the warranty and liability limitations or disclaimer are not acceptable, return the unopened container to the place of purchase for full refund. To the extent not inconsistent with applicable law or the label, the purchase, delivery, acceptance and use of this product by the buyer is subject to the terms and conditions of seller's sales invoice for this product.
