## PRODUCT INFORMATION

**INVADE XTRA** is a unique oil based surfactant, nonionic surfactant, and trisiloxane in liquid nitrogen. It is designed for use in pesticide sprays to increase activity, aid in penetration, and provide uniform coverage. The oil based surfactant works as a replacement for crop oil and MSO in the presence of silicone in a liquid nitrogen solution.

## DIRECTIONS FOR USE

**PREPARATION AND APPLICATION OF SPRAY EMULSIONS:** Fill spray tank half full with water, add the proper amount of herbicide while agitating and then add **INVADE XTRA**. Continue to agitate while filling and agitate before and during each application to insure a uniform spray emulsion.

**PRODUCT USE RATES** - Read and follow all information on the labels of pesticides with which this product is used.
