If skin irritation occurs: Get medical advice/attention

IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

In case of emergency call CHEMTREC 1-800-424-9300.

PRODUCT INFORMATION

COMPOSE WSP is a water soluble powder that acts as a fertilizer enhancer, increasing the availability of nutrients.

DIRECTIONS FOR USE

1 scoop = 4 ounces

Use in accordance with label instructions and/or the recommendations of a qualified individual or institution such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

PREPARING TANK MIX SOLUTIONS

Thoroughly clean all spray mixing and application equipment prior to and following each use. Unless directed otherwise by mixing instructions on the label of product to be tank mixed with **COMPOSE WSP**, follow these procedures:

- Add the desired amount of water to the tank and begin agitation.
- Add desired spray adjuvant (wetting agent) if the application requires it to be used. **COMPOSE WSP** will wet and disperse readily without an adjuvant.
- Drip-irrigation add **COMPOSE WSP** at a rate of 4 to 8 oz /acre.
- Foliar add **COMPOSE WSP** at a rate of 2 to 4 oz /acre.
- Add liquid fertilizer. Do not tank mix with herbicides. Do not mix **COMPOSE WSP** directly with undiluted tank mix partners until you have "jar tested" in a separate container the proportionate amount of **COMPOSE WSP** to make sure the products are compatible prior to tank mixing. Agitate and let stand 10 minutes. Settling that does not disperse indicates an incompatible mixture.
- Continue filling while agitating until all added products are thoroughly mixed into spray solution.

APPLICATION RATE RECOMMENDATIONS

SOIL APPLICATION:

Apply 4 to 8 oz/Acre. Dissolve in sufficient water (1 to 2 gallons) to provide uniform application and then add liquid fertilizer or other tank mix partners. See instructions on this label (Preparing Tank Mix Solutions). Apply banded, in-furrow, side-dressed, or through flood, furrow, or drip irrigation.

FOLIAR APPLICATION

Apply 2 to 4 oz/Acre per application with fertilizer using sufficient water (1 gallon) for uniform coverage of the crop. See instructions on this label (Preparing Tank Mix Solutions).

NOT FOR USE IN ORGANIC CROP AND ORGANIC FOOD PRODUCTION.

STORAGE & DISPOSAL

This material is hygroscopic. Always replace the lid tightly after use. Store product in original container tightly closed, upright, in a dry place. **DO NOT** store in excessive cold or heat. **DO NOT** reuse container. **DO NOT** contaminate water, food or feed by storage or disposal. Triple rinse, or equivalent and dispose of container in accordance with local, state, and federal regulations.
