NUTRIENT MANAGEMENT ENHANCEMENT

RD053025

PRODUCT INFORMATION

PYRAMID is a micronutrient fertilizer.

DIRECTIONS FOR USE:

Apply **PYRAMID** as a foliar application at 10 oz/acre and dilute in a minimum of 10 gal of water. Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by plants. The user should seek the advice of an agricultural representative of a professional agricultural consultant for specific application timings and rates. When tank mixed with other chemicals, compatibility testing should be conducted prior to application.

WARNING: PYRAMID is recommended for crops where boron may be deficient, however over-application may result in serious injury to sensitive crops. The use of the fertilizing material on any crops other than those recommended may result in serious injury to the crop(s).

STORAGE & DISPOSAL:

Store product in original container tightly closed, upright, in a dry place. **DO NOT** store in excessive cold or heat. **DO NOT** reuse container. **DO NOT** contaminate water, food or feed by storage or disposal. Triple rinse or equivalent and dispose of container in accordance with local, state and federal regulations.
