**PLANT NUTRIENT**

## PRODUCT INFORMATION

**VITALIPHITE K 0-0-20** is a foliar fertilizer designed to enhance the uptake of nutrients within the plant.

## DIRECTIONS FOR USE

This product is a commercial fertilizer used as plant food in agricultural crop production. For specific application rates follow the recommendation of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

**Use in accordance with label instructions and/or the recommendations of a qualified individual or institution such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.**

## APPLICATION RATE RECOMMENDATIONS

**SOIL APPLICATION:** Apply 1-5 quarts per acre.

**FOLIAR APPLICATION:** Apply 1-8 pints per acre with sufficient water for thorough coverage. Foliar fertilization is intended to supplement standard ground fertility programs and will not provide all nutrients by itself normally required by agricultural crops.

**VITALIPHITE K 0-0-20** can be applied at 7-14 day intervals, at a maximum of 5 times during growing season for foliar and soil applications.

## TANK MIXES:

**VITALIPHITE K 0-0-20** is compatible with many fertilizers and pesticides. Compatibility check is recommended on all mixes.

Fill tank with  $\frac{1}{2}$  to  $\frac{2}{3}$  water, begin agitation. Add tank mix partner products (surfactants, pesticides, etc.) to the tank based on manufacturer labeled instructions, mixing order is dependent on these partners. Adding **VITALIPHITE K 0-0-20** first to the tank mix partners that have high pH sensitivity will lower the pH of the spray solution. For tank mix partners sensitive to low pH solutions, add **VITALIPHITE K 0-0-20** last and spray immediately after mixing. For adjuvants, refer to the tank mix partner labels for proper mixing order and adjuvant selection. **DO NOT** mix **VITALIPHITE K 0-0-20** with fixed copper-based fungicides. **DO NOT** apply **VITALIPHITE K 0-0-20** in combination with citrus oils at more than 1 pint/A or 0.5%, whichever is less or in combination with petroleum oils at more than 2 quarts/A or 1.0%, whichever is less.

## SPRAY APPLICATIONS:

**DO NOT** apply **VITALIPHITE K 0-0-20** with any type of hand, pump, or back-pack sprayer. Avoid applying to wet leaf and fruit surfaces. Only apply to dry plant surfaces to the point of wet with no run-off. Do not spray when temperatures are above 85° F at time of application during day light hours.

## STORAGE & DISPOSAL

Dispose of contents/container in accordance with local/regional/national regulations. Store product in original container tightly closed, upright, in a dry place. **DO NOT** store in excessive cold or heat. **DO NOT** reuse container. **DO NOT** contaminate water, food or feed by storage or disposal. Triple rinse or equivalent and dispose of container in accordance with local, state, and federal regulations.
