PRODUCT INFORMATION

IVC DEFOAMER is both an excellent defoamer that quickly even stable foam structures and an efficient antifoaming prevents the further formation of tank mix foam.

Use of IVC DEFOAMER will prevent foaming that can cause the loss of accurate pesticide rates through spillover during mix agitation and eliminate the regeneration of foam during field applications.

DIRECTIONS FOR USE

Follow the directions on all pesticide labels. If the pesticide does not specify the use of an antifoaming agent and a defoaming agent, follow the directions below. Use only if an antifoaming and a defoaming agent is allowed or not excluded on the label. If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety. Vigorous agitation, temperature variations and the characteristics of some actives may require an adjustment of the use rate. NOT FOR AQUATIC USE IN WASHINGTON STATE.

USE RATE

DEFOAMING: Briefly stop agitation, and squirt or sprinkle IVC DEFOAMER directly on surface foam that has already accumulated.

Add enough IVC DEFOAMER to control foaming in the solution remaining in the tank.

ANTIFOAMING: IVC DEFOAMER should not be added to a dry tank. As the tank begins to fill, add the recommended amount of the active ingredient and then add IVC DEFOAMER at a use rate of up to 2 ounces per 100 gallons of spray solution.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place, between 40°F and 90°F. IVC DEFOAMER will thicken in cold temperatures and will freeze below 32°F (0°C). Freeze and thaw cycles may cause the product to separate. Simply warm and shake the container to help restore the material to its normal consistency for each use after that. Store in original container only.

DO NOT add anything to the container. Keep container tightly sealed when not in use.

DISPOSAL: DO NOT reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

DO NOT REUSE EMPTY CONTAINER FOR ANY PURPOSE.
