## PERSONAL PROTECTIVE EQUIPMENT (PPE)

**Applicators and other handlers must wear:** Eye protection, long sleeved shirt and long pants, shoes plus socks and chemical resistant gloves.

### FIRST AID

Call a poison control center or doctor immediately for treatment advice.

**IF SWALLOWED:** Have person sip a glass of water if able to swallow. **DO NOT** induce vomiting unless told to do so by a poison control center or doctor. **DO NOT** give anything by mouth to an unconscious person.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Have the product container with you when calling a poison control center or doctor, or going for treatment.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

### PRODUCT INFORMATION

*VELOMAX* is used as a spray adjuvant to improve deposition of spray droplets.

*VELOMAX* improves spreading and reduces the production of fine droplets which are susceptible to movement from the spray pattern.

The degree of drift hazard varies with the type of pesticide, application conditions and the vegetation near sprayed area. This product is intended as a management tool to reduce drift and improve deposition. Common sense and sound application technology must be followed when spraying pesticides. *VELOMAX* does not produce large spray droplets like some polymer drift products. Internal cohesion of the components help prevent droplets shearing into fines which move off target.ng.

### DIRECTIONS FOR USE

*VELOMAX* is intended for use with a wide variety of pesticides and sites including but not limited to agricultural crops, aquatic, forestry, industrial, non-crop, right-of way and turf and ornamental. *VELOMAX* may be used in conventional spray equipment both ground and aerial.

*VELOMAX* is suitable for use with in-line injection mixing systems and air assisted nozzles.

**NOT FOR AQUATIC USE IN WASHINGTON STATE.**

### APPLICATION OR USE RATES

Determine proper rate of product based on type of application and type of formulation being used. **DO NOT** exceed 1% v/v of the spray solution. Product should be the last additive prior to completely filling the spray tank with water.

### SUGGESTED USE RATES:

VOLUME TO VOLUME: 0.25% - 0.50%

The addition of an adjuvant to some pesticides, pesticide combinations, and/or fertilizers may cause phytotoxicity to the foliage and/or fruit of susceptible crops or non-targeted vegetation. Prior to the addition of the product to a spray tank mix, the user or application advisor must have experience with the combination and/or must have conducted a jar test for compatibility.

### MIXING

*VELOMAX* may be mixed with pesticides in conventional spray equipment but should be the last additive prior to completely filling the spray tank with water. *VELOMAX* may be applied through direct injection systems. If tank space is limited, *VELOMAX* may be premixed with Emulsifiable Concentrates. *VELOMAX* may be premixed with aqueous base formulations such as glyphosate but a compatibility jar test should be conducted with the formulation being used.

## STORAGE AND DISPOSAL

**DO NOT** contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store product in original container only, away from other pesticides, fertilizers, food or feed. Store in a cool, dry place.

**DISPOSAL:** Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. Dispose of contents / container in accordance with local / regional / national regulations. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.

**DO NOT REUSE EMPTY CONTAINER FOR ANY PURPOSE.**
