ENVIRONMENTAL HAZARDS

VERIMAX AMS-CA is not for aquatic use. Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

PRODUCT INFORMATION

VERIMAX AMS-CA contains water conditioning properties and a homogenized deposition agent designed to improve the precision of spray applications and reduce off-target drift. It is suitable for use on both conventional and transgenic crop varieties.

When used at labeled rates, **VERIMAX AMS-CA** will automatically optimize the angle of the spray pattern, as the spray exits the nozzle, to give maximum coverage of target surfaces while minimizing "pattern fringe" which contains the most driftable particles.

VERIMAX AMS-CA is intended for use as a tank-mix adjuvant where a deposition or drift control agent is required or recommended.

VERIMAX AMS-CA has been proven to increase glyphosate activity. This product also contains emollients which may improve absorption of herbicides into leaf surfaces.

VERIMAX AMS-CA also contains buffering and sequestering agents to adjust pH to a neutral range. **VERIMAX AMS-CA** may be used when the pesticide label recommends the use of a deposition aid or drift control agent. It is not intended as substitute for surfactants or crop oil concentrates.

DIRECTIONS FOR USE

VERIMAX AMS-CA is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial, and non-crop use. **VERIMAX AMS-CA** should be added to the diluted spray solution prior to the addition of any pesticides.

Ground and Air Rates:

Normal Use: 2 to 3 quarts per 100 gallons of water

Hard Water: 3 quarts per 100 gallons of water

VERIMAX AMS-CA contains the equivalent of 2 pounds ammonium sulfate/gallon.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

STORAGE: Store product in original container only, tightly closed, away from other pesticides, fertilizers, food or feed. Store at ambient temperature. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment. Do not use or store near open flame.

DISPOSAL: Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. Dispose of contents / container in accordance with local / regional / national regulations. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

DO NOT REUSE EMPTY CONTAINER FOR ANY PURPOSE.
