

VELOCITY™ CS

2-20-14

GUARANTEED ANALYSIS

Total Nitrogen (N)	2.0%
2.0% Ammoniacal Nitrogen	
Available Phosphate (P ₂ O ₅)	20.0%
Soluble Potash (K ₂ O)	14.0%
Zinc (Zn)	0.20%
0.20% Chelated Zinc	

DERIVED FROM: Anhydrous ammonia, Phosphoric Acid, Potassium Hydroxide, Zinc EDTA.

F3013

PROPERTIES

Weight per Gallon (lb at 68 °F)	11.48
Equilibrium Temperature	15 °F
pH	6.9

PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.

HAZARD STATEMENTS

May be harmful in contact with skin.
Causes mild skin irritation.
Causes eye irritation.

Prevention:

Wash hands, face and other affected areas thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.

Response:

IF ON SKIN: Wash with plenty of soap and water.
If skin irritation occurs: Get medical advice/attention.
Take off contaminated clothing and wash before reuse.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

PRODUCT INFORMATION

Follow directions on this label. For crops not listed, or for geographic or situational specific rates, use in accordance with recommendations of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

VELOCITY CS can be soil or foliar applied.

Always check compatibility with other products prior to use.

VELOCITY CS is not compatible with products such as salts of heavy metals like magnesium, copper, manganese, zinc and iron compounds.

DO NOT mix with calcium-based fertilizers.

DIRECTIONS FOR USE

Soil Application

VELOCITY CS can be soil applied by banding in or near the seed row, surface dribble, strip-till, bed placement or irrigation.

VELOCITY CS Use Rate:

- Corn: 2 – 5 gallons/acre
- Cotton: 2 – 4 gallons/acre
- Dry Beans: 2 – 4 gallons/acre
- Potato: 2 – 8 gallons/acre
- Soybeans: 2 – 4 gallons/acre
- Sugar Beets: 2 – 5 gallons/acre

Foliar Application

VELOCITY CS can be foliar applied on vegetable and field crops, deciduous fruit and nut trees, grapes, olives and citrus.

Apply 1 to 3 gallons per acre in a minimum of 5 gallons of water per acre.

Repeat applications may be beneficial.

Mixing Instructions:

1. Partially fill tank with water or fertilizer. Begin agitation.
2. Add fertilizer to circulating tank mix.
3. Add other chemicals or nutrients if compatible.
4. Fill tank and agitate thoroughly.

Foliar fertilization with primary nutrients will not provide the quantities of nutrients required for normal plant growth. This product may cause foliar burn if applied in higher than recommended rates or concentrations. Use only as a supplement to a regular fertilization program.

Use of a surfactant may enhance leaf coverage and increase nutrient absorption.

DO NOT apply when the crop is excessively stressed for moisture or during periods of high temperatures.

Use the lowest possible volume for thorough coverage with a small droplet size. Optimum foliar application conditions for most crops generally occur during early morning or late evening hours.

STORAGE: Store in cool, dry, well-ventilated area away from incompatible materials.

WARRANTY, DISCLAIMER AND LIMITATION OF DAMAGES

INNICTIS BioScience Plant Health Technologies warrants only that this product conforms to the product description on the label and is reasonably fit for the purposes stated in the Directions For Use. The Directions for Use of this product are believed to be adequate and must be followed carefully. It is, however, impossible to eliminate all risks associated with this product. Crop injury, ineffectiveness, or other unintended consequences may result due to such factors as weather conditions, presence or absence of other materials, or the manner or use or application, all of which are beyond the control of INNICTIS BioScience Plant Health Technologies. All such risks must be assumed by the buyer or user. Except as warranted on this label, INNICTIS BioScience Plant Health Technologies makes no representation, warranty or guarantee, whether expressed or implied including, but not limited to, warranty of merchantability, fitness for a particular purpose, or otherwise. No agent or representative of INNICTIS BioScience Plant Health Technologies or the seller of the product is authorized to amend the terms of this Warranty disclaimer or the product's label or to make a representation or recommendation different or inconsistent with the label of this product. To the extent consistent with applicable law, INNICTIS BioScience Plant Health Technologies' maximum liability for breach of its warranty or for use of this product, regardless of the form of action, shall not exceed the purchase price of this product. To the extent permitted by applicable law, INNICTIS BioScience Plant Health Technologies shall not be liable for consequential, special or indirect damages resulting from the use, handling, application, storage, or disposal of this product or for damages in the nature of penalties, and the buyer and the user waive any right that they may have to such damages. If the warranty and liability limitations or disclaimer are not acceptable, return the unopened container to the place of purchase for full refund. To the extent not inconsistent with applicable law or the label, the purchase, delivery, acceptance and use of this product by the buyer is subject to the terms and conditions of seller's sales invoice for this product.
