## GENERAL INFORMATION

**IVC FOAM MARKER** foam marking agent is specially formulated to deliver long lasting foam in a range of weather and field conditions.

**IVC FOAM MARKER** is a highly concentrated formula, that when used as directed, will produce a thick, white, highly visible foam. This foam can be used with any foam marker equipment for fertilizer and pesticide applications, seed planting and general field cultivation.

**IVC FOAM MARKER** is formulated to handle extreme hard water and high temperature conditions. Note: Foam will disappear faster when placed on dry soil under bright sunlight, high temperature and high wind conditions.

**IVC FOAM MARKER** foam marking agent, when used at proper consistency and foam volume, should be visible for up to 40% longer than traditional foaming agents.

## DIRECTIONS FOR USE

Always thoroughly clean out the foam generator reservoir and lines when changing from one brand of foam marker to another. Use a high quality tank cleaner to remove residues and ensure optimum performance.

**Standard Use Rate:** Add 1 gallon of **IVC FOAM MARKER** for every 160 gallons of water; or 1/2 pint (8 fluid ounces) in every 10 gallons of water.

**Adverse Conditions, Such as Hard Water or High Temperature:** Add 2 fluid ounces of **IVC FOAM MARKER** for every 1 gallon of solution reservoir capacity. **IVC FOAM MARKER** performs well in hard water up to 1,500 ppm. The addition of water conditioners is generally not recommended.

**Near Freezing Temperatures:** Add 2 to 3 fluid ounces of methanol per gallon of **IVC FOAM MARKER** for immediate use. **IVC FOAM MARKER** mixes well in cold water.

**Color Additives:** If foam colorant additive is being used, add 2 fluid ounces of **IVC FOAM MARKER** for every 1 gallon of solution reservoir capacity. Note: The use of color additives will reduce foam performance.

## STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** DO NOT ALLOW PRODUCT TO FREEZE! Store above 45°F. Store away from heat or open flame and oxidizing materials. Store in a well-ventilated space. Keep cool. Keep container tightly closed.

**DISPOSAL:** Do not contaminate water sources by cleaning of equipment or disposal of wastewaters. Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents and container in accordance with local and national regulations.
